Subject: Microsoft Settlement

After many years of litigation against Microsoft on Antitrust charges, a reasonable settlement has been reached that shows that Microsoft is working hard to address the concerns of the department of justice and the many states that have filed suit against Microsoft. Please take this opportunity to settle- continuing the suit is bad for the US economy because it hurts the best performing NASDAQ stock of 2001 and many companies that rely on Microsoft to make their businesses operate, and it's expensive for the people of the United States to continue to pay for ongoing litigation. I beg you, please settle this matter.
